

A cross-sectional view of a multi-layered structure 200. The structure consists of several horizontal layers. From top to bottom, the layers are: a hatched layer 110, a white layer 300, a white layer 160, a white layer 140, a hatched layer 120, and a white layer 280. Two circular features 240 are embedded in the white layer 160. The entire structure 200 is supported by a base 400, which is shown in cross-section with a hatched layer 111.
